### What's Sublimation Product?

By applying sublimation coating to the exterior of objects, for example mugs, plates, metal boards and etc, photos are printed under the dye-sublimation process, producing extremely brightly, vivid and colorful images.

### What's your MOQ(minimum order quantity)?

We do not have a minimum order quantity for many of the items we currently offer. On the other hand, to achieve the most economical bilateral costs, we strongly recommend you to order more than 2CBMS per order (for mugs, it would be about 2016pcs). If your order quantity is too low we will have to delivery by air courier such as DHL, UPS, FedEx, TNT or etc. But most of our products belong to heavy and low value products so the cost of courier service is usually high.
