

RAYSON

Foshan Rayson Non Woven Co., Ltd. is a Sino-US joint venture, established in 2007, located in the town of Foshan Shishan High-tech Zone, less than 30 minutes from the Guangzhou Balyun International Airport, adjacent to Volkswagen, Honda, CMO and other enterprises, with a complex covering an area of roughly 80,000 square meters and employing over 400 people. The company specializes in the production of spunbond Non Woven fabrics and Non Woven fabric products, with more than 90 percent of its products sold in more than 30 countries.

Foshan Rayson Non Woven Co., Ltd. is a seasoned manufacturer in the Non Woven fabric industry with years of experience. It is committed to Non Woven fabric research, development, and production and has seven advanced Non Woven fabric production lines, capable of producing SMS, SS, S Non Woven fabrics, with the producing weight range from 10gsm to 150gsm within 3.2m width, with an annual production amount weighing over 18,000 tons. The company is capable of producing Non Woven fabrics of many different colors and sizes, suitable for many different uses.

In addition, Foshan Rayson Non Woven Co., Ltd. is a quick responder to market demand. Noticing a demand in the European market, the company developed a Non Woven fabric tablecloth that quickly became popular within that market. Aided by the use of its automatic cutting and folding machines, the company is capable of producing Non Woven fabrics that best suit a customer's sizing needs. Recently, the company's new release of internationally SGS certified Non Woven fabrics became widely used in the agricultural market. Through the production of environmentally safe fabrics in a variety of colors and sizes, Foshan Rayson Non Woven Co., Ltd. has gained the trust of its customers.

Faced with fierce market competition, Foshan Rayson Non Woven Co., Ltd. has managed to thrive its commitment of maintaining quality control and industry credibility. The company are devoted to "dependable, innovative, enthusiastic, shared"; committed to provide effective and efficient customer service.

EXTRA WIDE NON WOVEN FABRIC

Width: maximum 45m
Glue line: single line or double lines of different colors

The advantages of agricultural non woven fabric
The advanced splicing equipment invented by ourselves can make the fabric width up to 45 meters.
We produce pp non woven fabric of different grammage and width. We can make our products into rolls or slices. The glue line of the splicing non woven fabric can be single line or double lines of optional colors.

We use international high quality materials and Germany Clariant anti-UV masterbatches, which ensures good quality from the beginning. Our products have passed the SGS certificate, proving that our products are of good quality.

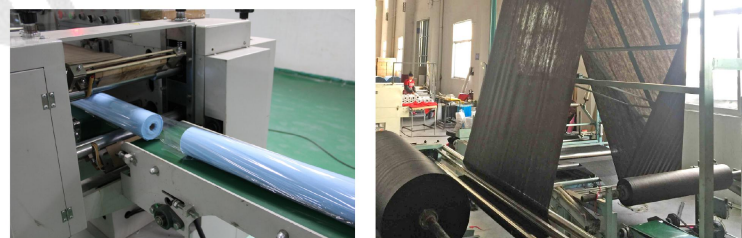

WEED BARRIER FABRIC

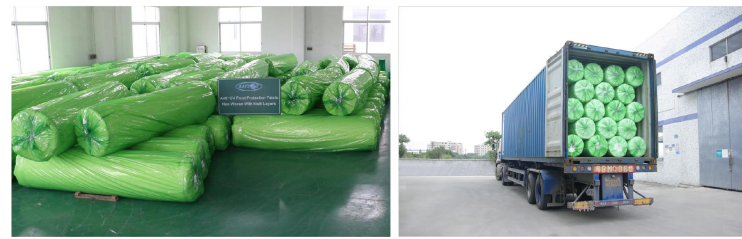

Weight: 25g/m² to 150g/m²
Size: 1m x 14m, 1.2m x 10m, 1m x 50m, 2m x 25m, 1.5m x 10m or customized
Packing: roll packed with heat shrink film and customer label, 25 rolls per bundle

We are highly mechanize that we own several automatic small roll machines so as to deliver our goods on time. With daily output of more than 2,500 rolls, our small roll non woven fabric can be packed with POF and different cartons according to customers' need.

9 to 10 tons of splicing non woven fabric can be loaded in a 40 high cube container, 25% to 30% higher than other companies.

DISPOSABLE MEDICAL BEDSHEET

RAYSON has some sets of post-processing equipment which could produce medical or beauty non woven bedsheets and laminated bedsheets. Also we could supply packaging of small pieces and small rolls to meet customers' requests.

At present our production capacity could reach 50000 pcs per day. The popular sizes of these products include 25Gx0.75Mx1.25M, 25Gx0.75Mx1.8M, 25Gx0.75Mx 2.0M, 45Gx0.8Mx2.1M, 45Gx1.0Mx2.1M, 75Gx1.5Mx2.2M. As for small rolls of perforated fabric, normal sizes are 35Gx0.80Mx2.0M, 35 Gx0.80Mx1.8M.

And Rayson is able to produce medical blankets, blanket covers and pillows according to demands.
