Part 4 : Products Parameters

The merit of Ballast as follows,

First,we import Elecctric Capacity in Ballast from Rubycon/Panasonic in Japan.

Second,we adopt Hella Technology to make the ballast.

Third,please check the ballast

	Other supplier BALLAST	LS BALLAST	Remarks
Cold tube start current	9. 4A-9. 6A	5. 2 A	Lower current cannot be reach the
			Higher current will be destory the bulb
Cold tube start Power	76W-82W	52. 5W	The perfect watts make the bulb
Hot tube strat current	7. 8A-9. 4A	3. 4A-3. 5A	When you change light it will be
Hot tube strat power	62W-78W	33. 5W-35W	Always the same watts,close to the
Bulb voltage	85V-126V	85V-165V	Long life of the bulb
Frequency HZ	487-503 HZ	247HZ	Make sure less disturb efficiency
MOS	BT	IR	The top quality of the electric

Also when current is stable,just only 2.9A,also work 12hours,no change.

The defect rate of our ballast is super low and quality is so stable,you should know after several times' using.:]

The merit of Bulb as follows,

First,the lamp burner is imported from Philips.

Second,the diameter in bulb is 9.1cm,many of other company is 8.7cm.

Third,the ball of lampwick is baked by alcohol,after baking,no pollution.
