

Hangzhou Nuoen Precision Instrument Equipment Co.,Ltd

No.1 factory: Laser cutting machine factory

No.2 factory: Laser marking machine factory

Profile:

BiaoKe Laser Technology (Hangzhou Co., Ltd) is a hi-tech enterprise which manufactures laser machines and focuses on Research & Development plus selling of industrial laser products.

It belong three companie

No1: Shanghai BiaoKe Photoelectronics Technology Co., Ltd (product Factory)

No2:BiaoKe Laser Technology (Hangzhou) Co., Ltd (Product Factory)

No3:Hangzhou Nuoen Precision Instrument Co., Ltd (Trade Company)

Main Business:

Fiber laser marking machine,
Co2 Laser marking machine,
3D Laser marking machine
Fiber laser marking machine,
Co2 Laser cutting machine,
Co2 Laser engraving machine
Fiber Laser engraving machine
and a series of testing machine.

Location:

No8, Ning'an Road, Xiaoshan Economic Development Zone Hangzhou City, Zhengjiang, China.

Fiber laser marking machine Samples

stainless steel sample:

Plastic Materials:

It is widely apply to electronics, computer, watches, hardware, many kinds of tools and other industries, and mark on the surface of many kinds of metal material (stainless steel, high speed steel, alloy steel, iron, aluminum and aluminum alloy, etc) and parts of non-metallic materials (ABS, PC,PE,PVC,PET etc).

Fiber laser marking machine Samples

Other marking samples

Online Flying Fiber laser marking machine Samples

Co2 Laser Marking Machine Samples

Table Co2 laser marking machine:

It's suitable for bamboo, wood, paper, plexiglass, PCB board, acrylic, rubber, marble, granite, jade, crystal, leather and other non-metallic materials

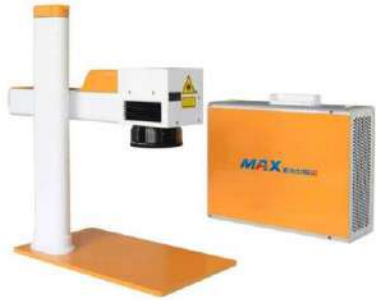

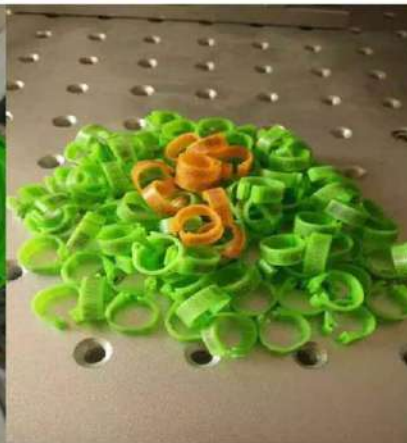

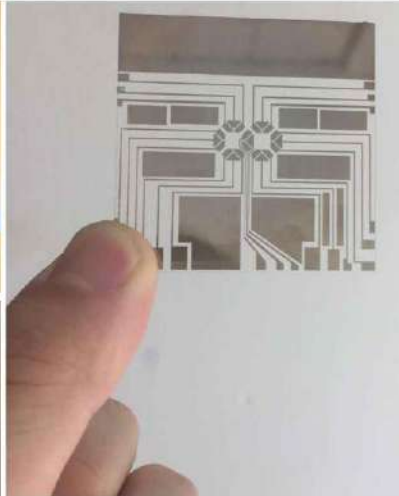

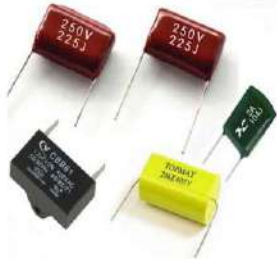

Mopa Fiber Laser Marking Machine Samples

It can mark metals and alloys, rare metals and alloys, metal oxides, special surfaces, alumina marked black.

UV Laser Marking Machine Samples

Green Laser Marking Machine Samples

It can mark metals and plastics.

Hangzhou Nuoen Precision Instrument&Equipment Co.,LTD

I'm not a person, I belong to a team.
