常州市时宇车业有限公司
CHANGZHOU SHIYU AUTO PARTS CO.,LTD

常州市时宇车业有限公司是一家集开发、生产、科研及销售为一体的多样化企业。自1997年成立以来，公司始终坚持“品质、诚信、创新、服务”的企业理念，积极贯彻质量和品牌战略。经过十多年的不懈努力，现公司总占地面积30000度平方米，建筑面积20000多平方米。

公司在大力拓展国内售后市场的同时，加大研发力度，积极进军灯具的改装市场。现已投入生产多款双光氙气前照灯总成和LED尾灯。现已与全国多家4S集团形成定向合作，我司产品凭借其良好品质在同行业中享受较高声誉，深受国内外客户青睐。

质量是企业发展的根本，创新是企业发展的源泉，客户满意是我们在公司追求的目标，因此，我司一直将追求良好的品质与技术为企业生存价值，我们努力将更酷、更炫、更亮、更个性的产品带给广大客户，让我们成为您的汽车服务照明专家。

竭诚欢迎国内外新老客户光临惠顾。

ChangZhou Shiyu Auto Parts Co.,Ltd. is a diversified enterprise integrated with development,production,scientific research and sales in automobile lamps. Since its establishment in 1997,the company has been constantly adhere to the "Quality, Integrity, Innovation and Service" as its business philosophy to actively implement its quality and brand strategy. Though protracted and unremitting efforts over the years, the company is now covering an area of 30000m², with 20000m² built-up area.

At the same time to expand business of domestic aftermarket, the company has been entered the automotive performance parts market. Several types of Bi-Xenon HID and LED taillights have been launched and circulated and gain fine reputation. Furthermore, the company has been invited as appointed cooperators for several 4S Group shops nationwide. Our products enjoy high reputation in the same industry, which are welcomed by customers both at home and abroad.

The company survives on high quality, seeks development with the new product, takes the customers requirement as enterprise core and pursues perfect quality and superior technology as enterprise value. We will also sincere to supply our end-users cooler, brighter, attractive, and distinctive products. SHIYU is your illuminating expert in automotive service. We are earnestly

welcome new and old customers from both home and abroad.

目前市场分析 MARKET ANALYSIS

国内 HID 市场经过 8 年的培育，已经步入了黄金时期，用户基本接受了 HID 在汽车改装的好处，但简单加装氙气灯光后散光、刺眼、故障率高、对原车电子干扰等技术瓶颈引起不和谐的声音。同时，由于套装产品的同质化严重，没有合理的利润，有些 4S 店基本 3 年前停止加装氙气灯的经营业务。

目前，欧系高档奔驰、宝马、奥迪等车型的出现更高配置的前照明系统双氙气组合大灯总成，引起了国内发烧友的普遍关注，此技术如何应用在中级车型上，也引起了行业普遍的关注，后市场潜力巨大。

常州市时宇车业有限公司联合国内一流的光源专家，率先在行业内研究开发具有知识产权技术的双氙气组合前照明系统，并应用在国内中级车上，申请了相应的专利。产品具有原车专用的特点，升级权为方便。通过几年的推广，目前在国内 4S 集团引起了广泛的关注，为汽车 4S 店促进整车销售和提高利润带来了新的经营模式。

After a eight-year cultivation,HID in the domestic market has stepped into a prime time.The advantages of HID to vehicle refitting agencies have been recognized by users,but also some negative views on it because of technical bottleneck such as astigmatism,dazzling,high failure rate,distracted to the original car electronic system,for which simple installation of xenon bulbs.Meanwhile,many 4S shops discontinued HID refitting business 3 years ago for serious homogenization of suit kits and unreasonable profit.

At present,the application in front illuminating system of higher configuration-Bi-Xenon HID Assy,in European premium cars like Mercedes-Benz,BMW,AUDI,has drawn wide attention to domestic fans.Then how to apply this technology into intermediate cars have also raised the concern in car industry, with enormous growth potential in it.

Changzhou Shiyu Auto Parts Co.,Ltd.has pioneered in researching and developing better front illuminating system of Bi-Xenon HID,by providing with intellectual property technology by a group of home first-class illuminant experts.This technology has been into the use of intermediate cars with relevant patent applied.The advantages of those products are of matching perfectly with the original vehicle and conveniently upgrading.Through several years of promotion,our products have aroused general concern among domestic 4S group shops for which better car sales promotion and profit boost,also bringing out a brand new management pattern.

优缺点分析 ADVANTAGES AND DISADVANTAGES

	简单换灯泡 Easily changing bulbs only	双氙气照明系统 Bi-Xenon HID illuminating system
优点 Advantages	价格便宜，消费者比较容易接受 Low-consumers are easy to accept	1.原车专用，升级方便。 2.国家专利产品，符合法规，年检无忧。 3.大大地降低故障率及售后服务成本。 4.LED泪眼，夜间更炫酷、炫，充分体现时尚动感，提升爱车的档次 1.Original car with original use,convenient upgrades; 2.National patent product,Compliance with local laws; No worries on annual inspection; 3.Drastically reducing high failure rate and after-sale service cost; 4.LED tear lamps make your car look cooler and more attractive in the evening.Both a extremely fashionable demonstration and a taste improvement.
缺点 Disadvantage	1.对行人刺眼 2.使用的故障率高，售后频繁 3.对原车电子干扰比较严重 1.Dazzling to passerby; 2.High failure rate and frequent after-sale; 3.Serious distraction to original car electronic system 4.Bad homogenization and thin profits 5.Legally binding	前期的安装成本相对较高，随着用户的增加，产品成本会进一步下降 High cost in early installation,but a gradually cost reduction by increasing users.

双氙气总成的独特优点 DISTINCTIVE ADVANTAGES OF BI-BENON HID LAMP ASSEMBLY

特点 CHARACTERISTICS	特点说明 Analysis
原车专用 Original car with original use	外型与原车一致，不损原车线路，即插即用，安装简便 Keeping appearance in accordance with the original car,no damage to original car circuit; with permission of plug and play;convenient installation..
提升档次和安全升级 Taste improvement & safety upgrade	与奔驰、奥迪类似的 LED 泪眼适合发烧友的喜悦； 远、近光一体的照明效果带来夜间高速路上安全、愉悦的驾驶乐趣 Catering to those fans in which preferring to LED tear lamps that are similar to Benz or Audi; the lighting effects through integration between low and high beam makes your trip safe on a highway and a pleasant driving.
符合法规 Compliance with local laws	双氙气总成采用和高档整车一样的技术，符合国家出台的 HID 标准；已申请了相应的专利技术 The technology that applied in Bi-Xenon HID assembly is the same as premium cars; that in accordance with national issued HID standard;that applied relevant patent.
产品的差异性 Product differentiation	和传统的简单 HID 灯泡相比，具有原车专用的特点。安装简单，售后少 Compared with traditional easily changing bulbs,our products hold their advantages of original cars with original use,convenient installation and reducing after-sale service.
无可比性 Non-comparability	作为一个完整的照明系统，目前已购该双氙气产品的消费者， 只在宝马、奥迪 AL 等整车上看到类似产品提升您爱车的档次和照明系统安全升级 As an integrated illuminating system,those who purchased Bi-Xenon HID lamps can only see similar products in BMW,Audi A6L or vehicles like this,which could enhance your quality and upgrade the security of lighting system.
性能佳 Good performance	完美冷热气流循环系统：“一体式”圆饼安定器； 表面硬化和镀膜（雾化）处理；完美地解决了进水、起雾、龟裂等现象 With a perfect circulating system of cold and hot flow;"onePiece" round-cake stabilizer,the disposal of surface hardening and atomization have solved problems like water leak, fogging,crackle and so on.
完善的服务体系 Excellent service system	提供售前、售中和售后服务；提供增值服务，推出三年碰撞险；解除消费者后顾之忧 Supply presale service,in service and after service;and value-added services; and a three-year insurance.Let our customers certainly be free from later worries.

一、公司品质承诺

1. 本公司承诺时宇品牌改装大灯总成十二个月的品质保证。是从用户安装之日为准，安装时需填写保修服务卡，并把填写好后的保修卡拍照发到时宇公司售后邮箱：2836355063@qq.com

二、售后服务条款

1. 按生产日期计算未超过一年质保期的可以不提供保修卡；超过一年质保期但未能提供保修卡的按生产日期开始算起15个月做为免费质保；未能提供保修卡且按生产日期计算超过15个月的按付费维修；提供有效保修卡的按装车日期开始计算12个月的质保期（保修卡上的条形码需与总成上的一致）。

2. 因客户使用不当造成产品不良或超过质保期的本公司按付费维修售后。

3. 货物退回工厂的运费由工厂承担，货物返回给客户时运费由客户承担，如江、浙、沪快递比较优惠的地区，请客户寄付，我方寄出时也寄付，如到付快递公司要收取双倍费用。

4. 有质量问题的大灯总成在返厂前客户应填写附件的资料卡，发到QQ邮箱。我司在接到资料卡后，会第一时间联系客户了解情况，双方沟通无问题后再退回工厂做售后。

工厂地址：江苏省常州市新北区孟河镇小河九龙开发工业园区59号

售后电话：0519-85088518

物流跟单：0519-85088508

三、声明

1. 本条例之制定、修改、解释权归属常州市时宇车业有限公司所有；

2. 本条例自发布之日起开始实行。
