Sunny insulation bowl

Design registered

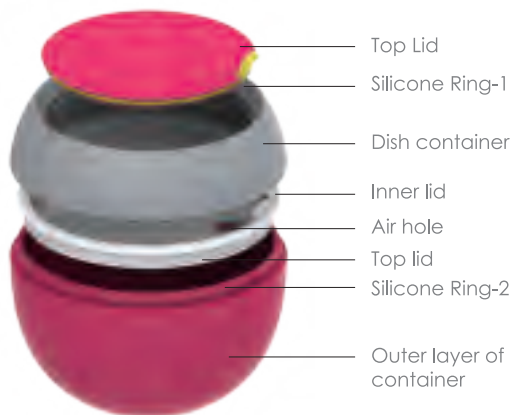

The warm feeling of this Sunny Insulation bowl is our main design concept. It can keep warm very long so it quite suits for carrying healthy porridge or soup. This bowl makes the food within the most suitable eating temperature range. A very humanization design for our lives!

Put the dishes on the top part, separate it from the porridge or soup. "Love Handle" design makes the bowl more distinctive and easy to open the lid. 10 mm thick insulation layer, low thermal conductivity and keep warm longer.

Concave shape of top lid makes it easier to stack, you can bring one or two, etc. Arc shape makes the bowl easy to hold comfortably.
