Applications

This machine used for permanent hair removal, varicosity, hemangioma, nevus flammeus, telangiectasia.

Advantages

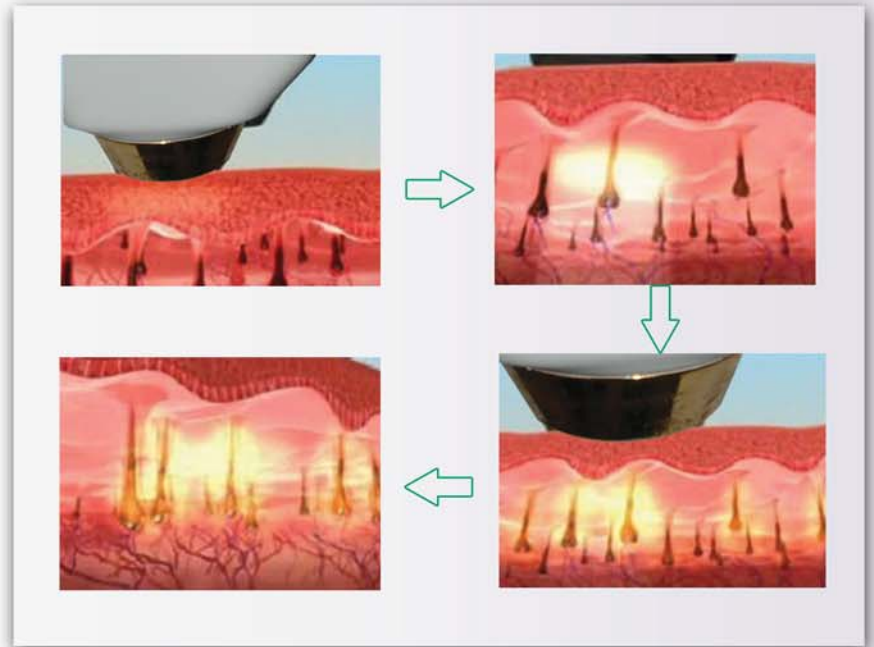

1. This state-of-the-art laser effectively and safely treats all skin types. Including tanned skin, the broadest range of hair colors, diameters and depths.
2. Big spot size.
3. Safe and fast treatment.
4. Germany imported laser bar, long life-time, stable performance.
5. Sapphire crystal, contact cooling. really painless.
6. Suitable for all kinds of hairs, widely regarded as "Gold Standard" for hair removal: permanent hair removal.
7. It is the product suggested by AS medical institution, and we are the official supplier of many domestic hospitals and clinics.
8. Energy calibration system

Treatment Theory

Diode laser hair removal technology is based on the selective dynamics of light and heat. The laser goes through the skin surface to reach the root of hair follicles; light can be absorbed and converted into heat damaged hair follicle tissue, so that hair loss regeneration without injury surrounding tissue. Slight pain, easy operation, the most safe, technology for permanent hair removal now.

Intelligent system

Humanized LCD operation System Design,
Faster in reaction, More convenient in operation,
More beautiful in outlook

USB updating technology: Add your company
logo and Cartoon on the LCD screen

Leasing Rent software programme: No need
IC card, only a phone call can solve the
problem of RENT business.

1. Intelligence
2. Easy to operate
3. Stable operation
4. Simple and beautiful

Printer Features

Brand New Printing Function "Remember" all of your treatment data.

1. Printing all of the customer's personal data: Name; Age, Gender, VIP number, treatment area, Treatment parameters, etc
2. Printing all the Doctor data
3. Records all the treatment data
4. Download all the treatment data

Given below are the advantages of this machine when compared to products in other countries.

Specifications

Light source	Diode laser
Display system	Color microcomputer touch screen
Laser Type	High power Diode laser
LCD screen	8.4 inch 24 color multi-color touch screen (optional:10.4 inch,12.4 inch)
Wavelength	808nm
Fluence	120J/cm ² or 180J/cm ²
Pulse Duration	5~400ms adjustable (5-1500ms optional)
Pulse frequency	1~10Hz (0.5-20Hz optional)
Spot size	12x12mm ²
Cooling system	Sapphire contact cooling style+air+semi-conductor
Crystal temperature	0~5°C
Power requirement	AC230V/110V 50~60Hz

Weifang Huamei Electronics Co., Ltd.

100% Focus on Quality, Service and Customer

ABOUT US

We are the biggest manufacturer for beauty machines in China, till now, we already exported to more than 120 countries all over the world and got the sound reputation.

We are the GOLD supplier on ALIBABA and MADE IN CHINA for 6 years, and we got Factory Audit from them.

Our beauty machines has been approved by European CE, ISO13485 approval, Australia TGA approval, SFDA.

We got the exclusive agent in Germany, Spain, Australia, Iran, Turkey, Canada, Portugal, etc
