WEIKA (THAI LAND)CO.,LTD +

About Us +

【品牌介绍】

Anhui Weika Windows and Doors Co.,Ltd is a comprehensive company specializing in UPVC and aluminum windows & doors designing, manufacturing and exporting.

Nowadays, Weika has purchased many advanced equipment home and abroad. Our company formed a complete team with skillful designing, managing, producing and QC. Our products has obtained many certifications like ISO9001, CE, TUV, AS2047, US AAMA, and Nigerian SON. To strengthen the competitive advantage, also improve the client's local competition, Weika innovates new product with solo patent like 37 series and 58 series single sliding window.

By now, the company occupies 25,000 square meters, production area 12,000 square meters, annual production capacity 300,000 square meters. It has becomes the largest window exporter in east Asia.

With the power of export independently, Weika has exported products to Panama, Nigeria, Chile, India, German, US, Spain, UK etc. It is biggest window supplier in Panama market.

Weika takes quality first as corporate philosophy, enhance professional windows and doors production base, target to be well-known brand. With first class technique, equipment, management and service, we will provide highly cost effective products and reliable after sell service to every client.

【美式塑钢提拉窗】

American UPVC Vertical Sliding Window

Features

▲ Screen Mesh

▲ Lock

▲ Profiles

【塑钢悬窗】

+

UPVC Top Hung Window

1. flat open more than a lock on the hanging window seal, you can greatly enhance the sealing of the window. After the sealing is enhanced, its thermal insulation and sound insulation will also be improved.
2. The design of the flat top-hung window with multiple locking points and the mushroom head lock greatly enhances the anti-theft performance of the window. The possibility that thieves would enter the room through the rolling sashes could be reduced to almost zero.

Features

▲ Handle

▲ Lock Point

▲ Lock

▲ Friction Stay
