- Work out from light to heavy, and let the vaginal muscles gradually adapt to the weight of the shrinking ball.
- The bottom of the sphere should be kept at a distance of 2 cm from the vaginal opening to ensure that the sphere is pushed completely over the pelvic floor muscles.
- Perform Kegel exercises during walking, jogging, fitness, or swimming.
- When you first start using it, you may feel uncomfortable. Please don't worry. This is due to the vigilance of the body. It will gradually adapt after a few minutes.

- Hold on for 30 minutes every day
- Cleaning products and hands
- Dry with a clean towel
- Apply lubricant
- Lie flat or choose a suitable posture to relax
